

## A Task Trainer for Ultrasound-Guided Lumbar Puncture in Obese Patients

IMSH, January, 2021  
Joseph R. Sikon, M.D.; Jeff Heimiller, M.D.; Charles Lei, M.D.; Ryan Walsh, M.D.; Kenneth Palm, M.D.  
Vanderbilt University Medical Center

VANDERBILT  HEALTH

1

### The Problem

- Lumbar puncture (LP) is a common ED procedure
- Obesity Increases difficulty
- Ultrasound improves success
- Now an essential skill for trainees

VANDERBILT  HEALTH

2

### Our Solution

- Develop a low-cost model for US LP on obese patients
