

Identify Simulation Applications in Risk/Crisis Management for Resilience Building (1090-003933)

Huilin Lu, CHSE, PMP, PMI-RMP

SIMULATION:
BRINGING LEARNING TO LIFE

I M S H 2 0 2 1

Disclosure Statement

- I am the
 - Chief Executive Officer of AMC China
 - Vice President of Advanced Electronic Devices Inc. (AED Taiwan)
- I'm covering topics other than those represented by my relationships with AMC China and AED Taiwan.
- I do not receive any financial compensation for this presentation.
- I have no relevant nonfinancial relationship to disclose.

Objectives

1. Understand **definition, frameworks and phases** (mission areas) of **risk** management and **crisis management**.
2. Develop appropriate **plan outline** and simulation applications for attendees' organization according to its system needs and unique scenarios
3. Explore **applications of simulation activities** in the risk and crisis management phases to help strengthen system resilience.

Presentation Outline

- Unit 1. Concepts, definitions and frameworks
- Unit 2. Risk management processes
- Unit 3. Health system resilience and preparedness
- Unit 4. What to do if a crisis happens?

Unit 1

Concepts, Definitions and Frameworks

Unit 1. Concepts, Definitions and Frameworks

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

What are

- Risk
- Risk management
- Crisis
- Crisis management
- Resilience
- Health system resilience

Unit 1. Concepts, Definitions and Frameworks

MIL and HLS Exercise Types

Discussion-Based Exercise
Seminar
Workshop
Tabletop exercise (TTX)
Games
Operation-Based Exercise
Drill
Functional exercise (FE)
Full-Scale Exercise (FSE)

Unit 1. Concepts, Definitions and Frameworks

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

MIL and HLS Exercise Types

A dust explosion incident led to 500 casualties (2015)

<https://tw.appledaily.com/local/20200529/5F1O2FKED7GPQW6KN2LA7NWV3Q/> <https://news.ltn.com.tw/news/society/breakingnews/1378122>

Unit 1. Concepts, Definitions and Frameworks

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Course structure

(Risk Management)

(National Preparedness Goal)

(Crisis Response)

Unit 1. Concepts, Definitions and Frameworks

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Unit 2

Risk Management Processes

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Plan Risk Management

- Why?
- Know your resources and limits
- Objectives, policy and practice
- Stakeholders

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

#IMSH2021

Plan Risk Management

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Risk Management Plan

- Introduction and description of the project
- Methodology
- Organization
- Roles, responsibilities and corresponding authority
- Stakeholder risk tolerance
- Criteria for success
- Tools and guidelines
- Thresholds and corresponding definitions
- Document Templates
- Communications plan
- Strategy
- Risk breakdown structure

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

Unit 2. Risk Management Processes

Identify Risks

- Why?
- How to identify risks

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Identify Risks

- How to describe a risk?
 - cause - risk - effect
- There can be **positive** risks
 - “As a result of (new outpatient hall layout design), (less patient traffic flow may occur), which would lead to (improved timeliness of care).”

■ Practice #1

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

#IMSH2021

Qualitative Risk Analysis

- Why?
- Probability x Impact
- Proximity
- Manageability
- Overall impact

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

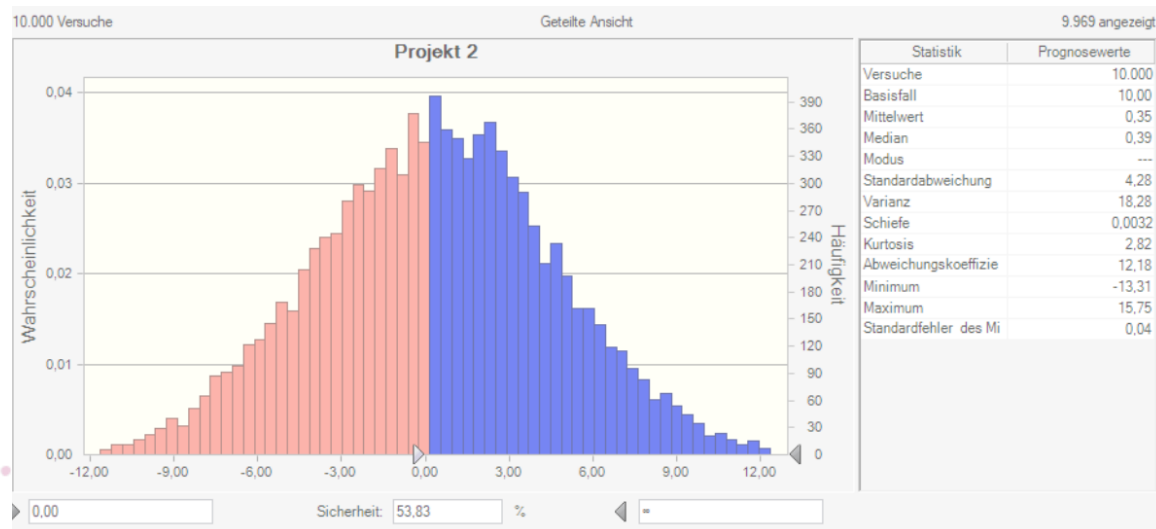

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Quantitative Risk Analysis

- Why?
- Qualitative vs. quantitative

https://commons.wikimedia.org/wiki/File:H%C3%A4ufigkeitsdiagramm_Monte-Carlo-Simulation_Projekt_2.png

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Plan Risk Response

■ Why?

■ Strategies

- Avoid/Exploit
- Transfer/Share
- Mitigate/Enhance
- Accept

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

Unit 2. Risk Management Processes

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Plan Risk Response

- Success in planning risk responses
- Simulation applications?
- Practice #2

Plan Risk Management

Identify Risks

Perform Qualitative Risk Analysis

Perform Quantitative Risk Analysis

Plan Risk Responses

Monitor and Control Risks

Unit 2. Risk Management Processes

SIMULATION:

SIMULATION:
BRINGING LEARNING TO LIFE

Identify Simulation Applications in Risk/Crisis Management for Resilience Building (1090-003933)

Huilin Lu, CHSE, PMP, PMI-RMP

THANK YOU!

SIMULATION:
BRINGING LEARNING TO LIFE

#IMSH2021

Identify Simulation Applications in Risk/Crisis Management for Resilience Building (1090-003933)

Presenter

Huilin Lu, CHSE, PMP, PMI-RMP
CEO, AMC China
VP, AED Inc.
huilin@amc-online.at

Disclosure Statement

Today in my presentation, I'm covering topics other than those represented by my relationships with AMC China and AED Taiwan. I do not receive any financial compensation for this presentation. I have no relevant nonfinancial relationship to disclose.

Course Practices

Practice #1 Risk Metalanguage Table

ID	Cause	Risk	Effect

Practice #2 Critical Success Factors of Risk Responses

Question:

You are in the risk response planning meeting in your organization. Consider the risks you identified previously in “Identify risk” process, and now we will be planning responses and, you, as the representative from sim center, are going to propose the applications of simulation as well.

1. Communication:

Consider a simulation for diversity communication training that you or your sim center can apply in your organization. Outline a plan for executing this simulation, address each of the following areas and briefly discuss your rationale.

- Topic (risk identified)
- Communication targets (stakeholders)
- Objectives of this simulation activity
- Simulation modality
- What resources (environment, equipment, personnel...) will you prepare for this communication training?
- Describe your debriefing strategy if any, and why?

2. Roles and Responsibilities:

Consider simulation applications to address work distributions according to the topic you choose. Please give a brief description of the following areas, and the rationale.

- Simulation activity applicable to high quality work distribution
- Targets (who should attend this activity)
- Objectives of this simulation activity
- Select simulation modality (if any)
- Scenario
- Debriefing strategy (if any)

3. Timing:

Please give an outline plan of your simulation activity applicable to timing of responses.

4. Resource:

Please give examples from your perspective.

5. Interactions:

Consider a risk you identified and give an example of such simulation activity with following areas:

- Simulation activity applicable to addressing interactions of risk and responses
- Targets (who should attend this activity)
- Objectives of this simulation activity
- Select simulation modality (if any)
- Scenario
- Debriefing strategy (if any)

6. Appropriateness:

Please give an outline plan of simulation activity you consider to contribute in this factor, following areas can be addressed:

- Simulation activity applicable to any topic mentioned in this section.
- Objectives of this simulation activity
- Select simulation modality (if any)
- Targets (who should attend this activity)
- Scenario
- Debriefing strategy (if any)

Practice #3 Risk Domains

Risk Domains		
	Domain	Risks Descriptions As a result of (cause), (risk) may occur, which would lead to (effect)
1	Operational	
2	Clinical/Patient Safety	
3	Strategic	
4	Financial	
5	Human Capital	
6	Legal/Regulatory	
7	Technology	
8	Hazard
