

UF CELS Simulation Center SOS Orientation Check-Off

Topic	Competency Level				Timeline for achieving level 3 competency (month)	Comments
	4	3	2	1		
Simulators- assembly, start up and connections						
<i>Tactical Trauma (007)</i>					2	
<i>Victoria</i>					2	
<i>Paul</i>					2	
<i>Laerdal G3</i>					2	
<i>Gaumard Adult HAL (Hank)</i>						
<i>Gaumard Child HAL</i>					2	
<i>Gaumard Super Tory</i>					2	
Assemble required parts					2	
Boot Up & Initiate Software					2	
Provide participants with orientation to simulator and equipment					3	
Perform routine maintenance (Cleaning, change skin, IO legs)					3	
Perform in-depth repair					6 +	
Work with Manufacturer to facilitate on-site repair					4	
Troubleshoot malfunctions					3	
Facilitates temporary loan of equipment					6	
Develops system to monitor inventory					3	
Maintains inventory of equipment					3	
Ensure operation in accordance with manufacturer specifications					3	
Week 1						
<input type="checkbox"/> Building Tour- <input type="checkbox"/> Intro to Robert and Charles for AV <input type="checkbox"/> HR meeting and Parking <input type="checkbox"/> Hospital Tour <input type="checkbox"/> Schedule and email system/ Sim Calendar <input type="checkbox"/> Reservation form <input type="checkbox"/> Who we serve <input type="checkbox"/> Insitu set up					1	
Week 2						

<input type="checkbox"/> Room and Course set up <input type="checkbox"/> Gas operations <input type="checkbox"/> Task Trainer orientation o Airway Trainers o OB/GYN Trainers o Harvey o Trauma Man o Trauma Child o LP Trainers o Art Line Trainer o PIV Trainer o CVL Trainer o Ultrasound Machines o Sono Sim o Suture Blocks o TEE Trainer					3	
Week 3						
<input type="checkbox"/> Gaumard and Laerdal software programming						
Tory, Pediatric HAL, 3G						
<input type="checkbox"/> Crestron setup						
<input type="checkbox"/> AV set up						
<input type="checkbox"/> IT request						
<input type="checkbox"/> Contacting vendors						
Week 4						
o Simulations on the fly					3	
o Victoria set up					3	
o Hank set up					1	
o Crash cart- Defibrillator					1	
o Airway box						
o Alaris pump						
o IO Trainer					2	
Week 5					3	
o Intro to Sim IQ					1	
o AV viewer					1	
o My Training						
o ALAC					2	

Week 6					2	
o New 3G set up					2	
o Box trainer set up					2	
o Sim course					3	
o A&P, common drugs, Ventilator, HFNC, BiPap					1	
o Orientation to Paul					3	
Other						
Ensures that work areas are safe, accessible, effective and clean for all customers					1	
Stocks and maintain simulated medications in sim lab					3	
Restock and Ordering Linen					1	
Contacting maintenance for issues					1	

Competency definitions:

- 1 - Training has not been received; knowledge is minimal.
- 2-Training has been received; knowledge is *insufficient* to understand and apply the required concepts.
- 3-Training has been received; knowledge is sufficient to understand and apply the required concepts.
- 4 - Training has been received; knowledge is sufficient to train others.
