VALT SOFTWARE

INTELLIGENT VIDEO SOLUTIONS

POWERFUL SOFTWARE TO OBSERVE, CAPTURE, SEARCH AND STREAM VIDEO

Large Scale VALT Deployments:

CHILDREN'S HOSPITALS
Serving treatment, research and training programs at CHOA, CHOP and CHLA

BRIGHAM YOUNG UNIVERSITY
Enterprise-wide deployment throughout Provo campus and nursing simulation at BYU-Idaho

THE UNIVERSITY OF GEORGIA
Clinical observation and training system for CSD, kinesiology, and the ASPIRE Clinic (counseling)

MONTCLAIR STATE UNIVERSITY
Training clinic solution for the Center for Clinical Services and Center for Audiology and SLP

SURREY PLACE CENTRE
Assessment recording and clinical observation across four nonprofit Toronto area clinical sites

WELD & JEFFERSON COUNTY SHERIFF
25+ interview rooms across Colorado

UNIVERSITY OF VIRGINIA
VALT system for the Sheila C. Johnson Center for Clinical Psychology and the Behavioral Research at Darden Lab

VALT is a simple, secure video solution for training, research and evidence.

VALT empowers organizations to create, manage, and use video to improve their effectiveness and achieve objectives. The software scales to support any number of cameras, while providing each program or department with a unique and secure experience.

SOLUTIONS

CLINICAL SKILLS
Allied health professions programs and training clinics

SIMULATION
Hospital-based centers, nursing and pharmacy programs

INTERVIEW RECORDING
Law enforcement, DA Offices, child advocacy centers

**RESEARCH**
Behavioral studies, clinical trials, focus groups

EDUCATION AND TRAINING
Learning labs, medical residencies, teacher training

ipivs.com

Initiate recordings on demand or schedule them in advance.

"ANYONE WHO NEEDS TO CAPTURE VIDEOS, RECORD THEM OR DO LIVE SUPERVISION WILL FIND VALT VERY EASY. THEY LOGIN, THEY PRESS PLAY, THAT'S IT"

FEATURES

OBSERVE

- HD camera support – Up to 50 IP cameras per server
- Multi-view – Quickly change from a single view to custom layouts
- PTZ control – Move PTZ cameras or digitally zoom from software

MANAGE

- Video retention – Automated data management per user group
- Secure download – High quality .mp4 file available to authorized users
- Sharing tools – Default and on-demand sharing rights per user

CAPTURE

- Cross-browser compatible – Initiate and tag recordings from any browser
- Scheduler – Program onetime or reoccurring scheduled recordings per room
- Push button + LED - Start/stop recording with a push button

SECURITY

- Data encryption – All data SSL encrypted in transit
- User permissions – Robust user permission for every feature and video content/stream
- Audit trails – Every user action logged and timestamped for search or export

REVIEW

- Intelligent search – Quickly find and stream relevant files via search engine
- Annotations – Mark points of interest with relevant data or feedback
- Playback tools – Jump to any timestamp, zoom in or create a clip
