7S³ 7-SIGMA Simulation Systems

Modular & High-Fidelity COVID-19 Airway Contaminant Kit

7S³ Modular COVID-19 Victim Airway Skills Trainers are unparalleled in their attention to realistically simulating intubation, ensuring that medical practitioners receive training that translates into superior patient care. Our Modular Airway Skills Trainers ingrain and fortify the skills and knowledge necessary for successful intubation by providing the most comprehensive simulation of an actual patient in a cost effective package with unparalleled realism. .

- Airway mimics that of a victim with COVID-19 airway contamination
  - Saliva spray with contaminated COVID-19 simulant
  - Nano particles aerosolized to be airborne up to 6 feet via exhalation
  - Cough simulation to expel excess mucous contaminant
  - UV (blacklight) assessment of cross contamination
  - Excellent training realization of contamination after doffing
- Anatomically correct epiglottis, tongue, vocal cords, & tracheal rings
- Realistic biomechanics of the jaw, neck, tongue, & epiglottis
- Supports positioning, oral and nasal intubation, and all supraglottic devices.

Please Note; like an actual COVID-19 patient, the 7S³ COVID19 airway is more difficult to intubate.
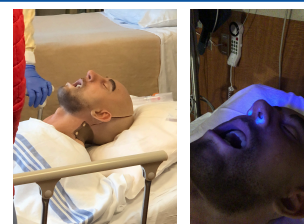

* kit comes with 7S³ COVID-19 Airway Contaminant Saliva, in-line aerosolizer, and UV flashlight.

**BVM and external air supply is not provided. Recommend 40 LPM wall air flow for optimum presentation.

COVID19 / Airway Contaminant Skills Kit

- Modular components to use with the 7S³ Airway Skills Trainers
- Saliva and Mucous simulate contaminated airway with UV assessment by black-light
- *COVID-19 / Airway Contaminant Skills Kit Part #: 580.770.7005*
